

nueSPL 2.47 Installation

nueSPL 2.47 will help you quickly and easily update your SPL to the latest version so you can install your own custom ROMS, or ROMS built by others. It comes with all the safety features of hardSPL.

Requirements

Before installing nueSPL 2.47, you should make sure that you have the following:

- ◆ HTC Titan Device (any carrier)
- ◆ microSD card with at least 1MB free.
- ◆ Back up all important data before continuing.
- ◆ Method to copy file to device (i.e. Activesync).

Warning: Failure to follow instructions can damage or destroy your device. Under the terms of the license agreement, the author cannot be held responsible for damaged or destroyed devices.

Installation

Once you make sure you have meet all the necessary requirements:

1. Copy the nueSPL-2.47.exe file onto your device.
2. Run the application and accept the license agreement, then press [**CONTINUE**].
3. Read the prerequisite check screen carefully. If it indicates that you do not have a FAT32 formatted partition, you will need to format your microSD card by pressing [**FORMAT**].

Warning: Formatting your microSD card will destroy all data! Ensure that you have made backups of anything you wish to save.

4. If your card is already FAT32 formatted, and it has at least 1MB of space available, press [**CONTINUE**].
5. Press [**CONTINUE**] to begin the flashing process. It will take approximately 10 seconds to complete, and your phone will reboot automatically. If prompted, press the [**POWER**] button to begin updating.
6. Allow your phone to fully reboot. Once your phone is rebooted, open file explorer and inspect to see if your storage card contains the file **TITAIMG.nbh**. If it is present, delete it before continuing.
7. Press the [**CAMERA**], [**POWER**] and [**RESET**] buttons at the same time in order to enter the bootloader. You should see a screen that says **SPL-2.47No2Chem Titan SPL EVT**. If you see this text, your SPL has been successfully updated. If you do not, power off your phone and start over from step 1. To return back to your phone, press the [**RESET**] button.

About

nueSPL is the product of many hours of hard work, and the combined efforts of cmonex, Olipro, No2Chem and pof. If you would like to support future development, please consider making a donation to the respective authors.
